House price prediction workshop

ESADE – November 26th 2021

Thanks again for joining our first workshop!

Before attending make sure to check that the following libraries have been installed in your notebook environment (Jupyter, Colab, Anaconda) :
- sklearn
- seaborn
- scipy
- matplotlib
- numpy
- pandas

Moreover, make sure to have (at least) a version of Python 3.x installed on your pc

Before the beginning of the event we'll provide you access to the repository in which you can find the full code

See you on Friday!
